

SA-1S:

Lab Batch Foaming Machine

10th Floor, No. 200 Jinshan Rd.
Sec. 2, Taipei, Taiwan.
Phone: 886-2-23956686
Fax: 886-2-23217266
Email: service@sunkistm.com.tw

About the Machine

The SA-1S is a key machine for all foaming labs. Designed for plants that create their own foaming recipes, the SA-1S is a batch foamer that gives chemists and operators the ability to experiment. This machine is a mini version of the Sunkist SA-1BM factory-scale batch foamer, without any functions stripped away, so foam technicians can expect consistent results between lab and factory floor when deploying exclusive recipes in the manufacturing process.

Technical Data

Size: 640 mm
720 mm
900 mm

Capacity: 6 liters

Mixing Speed: 200-3000 RPM

Features

- Low speed setting timer
- High speed setting timer
- Inverter speed control
- Pneumatic mixing tank motion control
