

## SA-3AR:

# Auto Vertical Dividing Cutting Machine

10th Floor, No. 200 Jinshan Rd.  
Sec. 2, Taipei, Taiwan.  
Phone: 886-2-23956686  
Fax: 886-2-23217266  
Email: service@sunkistm.com.tw

## About the Machine

The SA-3AR cuts foam blocks on a conveyor surface with a two-directional rotating knife head. Capable of 90-degree turns, the knife can trim all four sides of the block, as well as divide the block up into smaller pieces, all without manual operators to rotate or move the material. Cutting pattern is programmable for preset.

## Technical Data

|                       |                                |
|-----------------------|--------------------------------|
| Cutting Length:       | 2600mm                         |
| Cutting Width:        | 2400mm                         |
| Cutting Height:       | 1350mm                         |
| Cutting Speed:        | 2-20m/min                      |
| Rotary Cutting Angle: | 0, 90, 180, 270                |
| Conveyor Size:        | W 2450mm<br>L 2720mm<br>(2pcs) |
| Power Required:       | 7.2kW                          |

## Frequently Paired With

- **SA-2AB, SA-2AC**

Create a cutting line with our horizontal cutters; the 3AR takes care of all vertical cuts.

- **SA-14AVK**

Add CNC cutting to your conversion repertoire with the vertical contour cutter.

> Add tilting conveyor with guiding unit to straighten block before cutting.
