

# SA-7HA: Boring Machine

10th Floor, No. 200 Jinshan Rd.  
Sec. 2, Taipei, Taiwan.  
Phone: 886-2-23956686  
Fax: 886-2-23217266  
Email: [service@sunkistm.com.tw](mailto:service@sunkistm.com.tw)

## About the Machine

The SA-7HA horizontally bores holes through foam blocks with a removable spindle that makes moving the foam from the boring to the peeling process more efficient and convenient. Horizontal boring reduces foam compression, ensuring smooth and even holes. Contact our Sales team today, and inquire about work surfaces to accommodate any shape block. Pair with our SA-5AF for best effect.

## Technical Data

Max. Working Diameter:	60"
Working Length:	92"
Boring Shaft Diameter:	75mm
Boring Heads:	2 pcs
Abrasive Cloth Roller:	12 pcs

## Add-Ons

Add a feed-in unit made of galvanized steel rollers, manually adjustable up to 30cm in height.

Ask for use with the SA-5AF.
